

DR. DAVE'S Professional Tire Bead Gel

Dr. Dave's Professional Tire Bead Gel is a light viscosity lubricant with a film strength that ensures tire beads are properly seated. It is a water-free, non-toxic and non-WHMIS controlled substance.

Dr. Dave's Professional Tire Bead Gel:

1. Applies to a wet surface without diluting.
2. Will not freeze in a cold climate.
3. Will not evaporate on a hot wheel or in a warm climate.

The environmentally friendly (rapidly biodegradeable) bead gel can be applied with a brush, roller or a spray-on applicator.

DR. DAVE'S DOES THE JOB AND GOES AWAY, LEAVING NO HARD BUILD-UP OF MATERIAL BEHIND ON THE TIRE BEAD.

Available in a 10 Kg. Jug or 18 Kg. Pail.
