

# RIMEX

*Building better wheels*

## RIMEXCEL

RIMEXCEL stops rust build-up by providing a protective anti-oxidant on wheels and rims. When installed based on the recommended quantity, RIMEXCEL provides rust protection from the day the wheel is mounted until it is dismantled.

- RIMEXCEL removes existing rust scale from wheels and rims and reduces the amount of downtime normally required for refinishing wheels and rims.
- Reduces labour costs for tire demounting, eliminates the need for messy coatings of rim and beads, and reduces rim loss from scale and painting.
- Available in a variety of container sizes to suit your specific site requirement and is manufactured to suit all temperature ranges.
- Specifically formulated light viscosity fluid that offers exceptional tire and rim protection when added to the tire air chamber.

### Reduce Air Loss for Longer Tire Life

RIMEXCEL reduces normal air loss by at least 60%.

### Easy Mounting and Dismounting

RIMEXCEL acts as a lubricant to aid in the mounting and dismounting of tires on rims and wheels.

### Safety

RIMEXCEL is a non-flammable substance, safe for personnel and equipment. RIMEXCEL detects cracked rims before cracks are large enough to become a hazard to personnel.

Formula	Container Size	Item Number
AP Green	<ul style="list-style-type: none"><li>• 20 liter pail (5 US gal)</li><li>• 205 liter drum (54 US gal)</li><li>• 1,000 liter tote (264 US gal)</li></ul>	<ul style="list-style-type: none"><li>• RXL-AP020</li><li>• RXL-AP205</li><li>• RXL-AP1000</li></ul>
MLT (mid-low temperature)	<ul style="list-style-type: none"><li>• 20 liter pail (5 US gal)</li><li>• 205 liter drum (54 US gal)</li><li>• 1,000 liter tote (264 US gal)</li></ul>	<ul style="list-style-type: none"><li>• RXL-MLT020</li><li>• RXL-MLT205</li><li>• RXL-MLT1000</li></ul>
